
Prototype Presentation: Schedule Sidekick

Jerry Moyer & Mack McCall • 07.02.2026

Overview

Vision

Schedule Sidekick is the solution to class scheduling woes.

Students

- Students can easily sign up for classes, drop classes, and see their schedule for the semester.

Teachers

- Teachers can offer classes and manage class rosters with ease.
-

Functionality - Student

Account Creation

- Student accounts are easy, and fast to create. Just click one button and follow the prompts. And if you misspell your Email, don't worry. Schedule Sidekick offers you the ability to edit your account information!

Search for Classes

- Schedule Sidekick offers filtering for classes, so you don't have to search hard for them.
- Students can ask instructors questions about classes that are offered.

Schedule viewing

- View your classes at a glance with Schedule Sidekick. The schedule viewer allows you to see all of your classes, and which day of the week they fall on!
 - Students can also add and drop classes from Schedule Sidekick.
-

Functionality - Teacher

Account Creation

- Teacher-specific accounts allow for easy management of your teacher profile, classes offered, and students enrolled.

Class Creation and Deletion

- Simple interface to create new class offering for future semesters. Easily add class details and student limits.

Manage Class Roster

- Quickly view details for students enrolled in any of the classes you offer.
-

Thank You
